

# ARSENI ZUYEU

Poland, Warsaw, +48570434927, [arseniy.zuev@gmail.com](mailto:arseniy.zuev@gmail.com)

<https://github.com/ZuevArseniy/> <https://zuev.dev/> <https://www.linkedin.com/in/zuevars/>

## SKILLS

- **JavaScript(ES6)**, PHP, TypeScript
- **Vue.js**, Angular.js, Nuxt, **Symfony**, **Laravel**
- **PostgreSQL**, **MySQL**, Oracle, MongoDB
- Software design, Database design, OO design patterns, unit-testing
- UML, BPMN

## EXPERIENCE

### FEB 2014 - CURRENT

#### **SENIOR UI DEVELOPER**, UPWORK CORP. (US) INC. 5000 LIST

Developing new functionality for client area of upwork.com – job posting, openings management, sign up and onboarding.

During this time, participated in pre-IPO rebranding (from odesk to upwork) and migration from old stack (**ZendFramework/jquery**) to new one (**symfony** micro-apps/**angular.js/ Nuxt/Vue** SPA apps)

In 2018 developed a feature, that was mentioned among 2 best unplanned features of the year

### AUG 2013 – FEB 2014

#### **SENIOR BACKEND DEVELOPER**, PEAKSOFT LLC (BELARUS)

Developing new features for studymode.com, cram.com, and others

Technologies used: **ZendFramework**, **gearman**, **redis**, **mongoDB**

### SEP 2012 – AUG 2013

#### **BACKEND DEVELOPER**, FREELANCE

During this time, I was trying to launch couple of projects of my own – management system for recording studios, and a board targeted to sale musical instruments. Apart from this I was taking in some freelance backend jobs for smaller websites

Technologies used: **Kohana**, **Django**, **Ruby on Rails**

### SEP 2011 – SEP 2012

#### **BACKEND DEVELOPER**, NEWSITE LLC (BELARUS)

Apart from doing general web backend development for various corporate clients of the company, I built a module to redistribution of orders to collectors and drivers based on their workload for sas.am (Armenia), and standalone decryption app as well as web encryption module to encrypt clients credit requests for homecredit bank Belarus (now closed)

Technologies used: **Bitrix**, **jqMobile**, **DevelStudio**
